

DEMOCRATIC AND INDEPENDENT STATES TIMELINE

Name:

Date:

Directions: You're going to take the declaration of rights documents you compared in the last activity in this lesson and place the date of their occurrence on a timeline. You must:

1. Label the date of the movement.
2. Name the country declaring its rights.
3. Add a few bullet points about the main ideas put forth in each rights document.

After you've added those items to a timeline, do some research and add three additional independence movements. Try to find three that all occurred on the same continent. For example, you might look at Africa and what happened when those African nations declared independence from the British and other colonizers. Then, you will write a few sentences about the trends that you see when looking at this timeline.

Timeline Name: _____
