## Document B

**Source:** John Ruskin, lecture at Oxford University, February 8, 1870.

**Note:** John Ruskin (1819-1900) was a well regarded English intellectual, author, and speaker whose interests ranged from art critic to social reformer. This talk at Oxford was delivered to a standing room only crowd. A short excerpt follows.

[Will the] youths of England, make your country again a royal throne of kings; ... for all the world a source of light, a center of peace?... (T)his is what [England] must either do or perish: she must found colonies as fast and as far as she is able, formed of her most energetic and worthiest men; – seizing every piece of fruitful waste ground she can set her foot on, and there teaching these her colonists ... that their first aim is to be to advance the power of England by land and by sea.

**Source:** Freidrich Fabri, *Does Germany Need Colonies?* 1879.

**Note:** Freidrich Fabri (1824-1891) has been called the “father of the German colonial movement.” Fabri was impressed by the colonial achievements of the English and wanted Germany to do something of the same. His book was quite well received.

But should not the German nation who is fundamentally so very capable, so seaworthy, so industrially and commercially minded ... successfully pave the way for this new course? ... It would be wise if we Germans would learn about colonial skills from our Anglo-Saxon cousins and would begin—in a friendly competition—to strive after them. When the German Reich centuries ago was at the peak of the states in Europe, it was the Number One trade and sea power. Should the New German Reich wish to prove and maintain its newly won position of power for a long time, it will have to take up the same culture-mission and delay no longer to acknowledge its colonial task anew.

### Document Analysis

1. Why does Ruskin say England must found colonies “as fast and far as she is able”?
2. What does he say should be the colonists’ “first aim”?
3. According to Fabri, what were Germany’s strengths when it was “at the peak of the states in Europe”?
4. Why does Fabri believe that Germany needs to “strive after” colonies?
5. What is the driving force behind European imperialism in Africa, according to these two sources?

## Document C

**Source:** Information drawn from various sources..

**Note:** The Industrial Revolution led to many discoveries and inventions that helped Europeans to take over Africa.

Technological Development (Date Invented)	Use and Significance
Steam engine (1787) first used in boats; (1804) first used in locomotives	A more constant and forceful source of power than sails on ships or horse-drawn carriages. Steam engines powered ships and railroads.
Method of getting quinine from cinchona tree bark (1820)	Treatment for the disease malaria
Electric telegraph (1837)	Communication over long distances
Bessemer process (1855)	Quicker and cheaper method of manufacturing steel, which was lighter and more durable than iron
Maxim gun (1884)	First machine gun
Repeating rifle (late 1800s)	A faster-loading gun that was able to fire multiple shots more accurately than older muskets

## Document F

**Source:** Rudyard Kipling, "The White Man's Burden," 1899.

Take up the White Man's burden—  
Send forth the best ye breed—  
Go bind your sons to exile  
To serve your captives' need;  
To wait in heavy harness,  
On fluttered folk and wild—  
Your new-caught, sullen peoples,  
Half-devil and half-child...

Take up the White Man's burden—  
The savage wars of peace—  
Fill full the mouth of Famine  
And bid the sickness cease;  
And when your goal is nearest  
The end for others sought,  
Watch sloth and heathen Folly  
Bring all your hopes to nought...

Did you ever see a chameleon catch a fly? The chameleon gets behind the fly and remains motionless for some time, then he advances very slowly and gently, first putting forward one leg and then another. At last, when well within reach, he darts out his tongue and the fly disappears. England is the chameleon and I am that fly.
