

'Meme' Review of Semester 1

Welcome back to World History Semester 2! We are going to begin by looking back on content from units 1-4 to create a historically digitally altered image in a 'meme' manner. [Here is the inspiration](#) for this activity (these two teachers are awesome). Working in table groups, you will create your own poster based on content from the Origins of Democracy, the Enlightenment and Atlantic Revolutions, Industrial Revolution, Imperialism, or WWI. Begin by selecting a topic. Two students should work on the tag line(s) and the other two should begin on the poster design with one of them creating an account with their GAFE information on the tool chosen. Use [Poster My Wall](#) to create your poster. Regroup and finalize your poster. Download your poster to the Chromebook. Then, upload your poster to your class link on the Weebly to your class period's Padlet board. Indicate your table group members and give a description as in the lesson inspiration link listed above that I went to in class. You must be productive and work quickly- this is due before the end of class!!!

Topics within Semester 1 Units (You are not limited to these): *** One group per topic!

Origins of Democracy

- Magna Carta
- Petition of Right
- Oliver Cromwell
- Charles II
- Glorious Revolution
- William & Mary
